

There's more to Panama than meets the eye...

Panama is a beautiful country with a diverse array of landscapes and ecosystems. It hosts remote and spectacular rain forests, river gorges, water falls, volcanoes, fertile agricultural areas, coral reefs, pristine remote island archipelago's and tree covered highlands.

Panama also is home to indigenous groups, including the Embara and the Guna. Gain an understanding of how these people attempt to share and embrace their cultures and traditions, while also welcoming new ideas and change.

Panama is rich in history, & serves as a global economic engine via the Panama Canal.

However, Panama's richest asset is the people who call this beautiful country home.

***Come and join us as we
discover what Panama has to
offer!***

Pana-mania!

Be prepared to learn more about...

- Interconnections at play between ecology, culture and the economy;

Service Learning:

Discover how you can change the world and impact people's lives...

Global Learning:

Your international experience will impact the way that you view the world. You will reassess how your day to day decisions play out in a global community.

Be prepared to get out of your comfort zone...

Itinerary:

Days 1 - 4: Panama City where we will be staying in the canal zone. Learn about the history and economic importance of the canal.

We will visit the Canal and the old Spanish Quarters (Casco Viejo) and will spend a day at the Embara indigenous village along the Chagres River (accessible only by boat)!

Day 5: Tour the Panama Canal by boat.

Day 6: Travel to the Cocobolo Nature Reserve by 4x4. Hike through the rain forest with local guides, visit waterfalls, set up cameras in the forest. Assist with wildlife inventories and GPS mapping. with local scientists.

Day 7: Work with researchers with mist netting, wildlife inventories, and wildlife cameras.

Day 8: Tropical forest exercise / tree mapping. Service learning (working on the farm, tree planting, etc.)

Day 9: Visit subsistence farms and nearby villages. Meet families and participate in farm activities. Hike to the river for a swim.

Day 10: Pack up and travel by road and boat to Guna Yala (the San Blas Islands). Learn about the history, culture and modern challenges facing this indigenous group. Sleep in huts on Okotupu, Guna Yala.

Day 11-12: Visit other remote islands by boat. Snorkel and enjoy. Visit Guna communities and learn about their culture.

Day 12: Return to Panama City. Wrap up session and dinner on the Causeway.
