Winter 2017-2018
ALS 3954: ENVIRONMENT, HEALTH AND CULTURE

Program Overview:
Spend over two weeks in the diverse regions of Ecuador, exploring the interactions of our environment and our health, and how we are shaped by our culture, community, society, and government.

Excursions:
- Quito, a UNESCO World Heritage City
- Galapagos Islands, a UNESCO World Heritage Center. Isolated ecosystems and a “living museum and showcase of evolution”
- Tiputini Biodiversity Station Amazon Rainforest
- Hacienda Verde, Andean dry forest, traditional medicine
- Andes Paramo, high altitude tundra

Cost: Estimated program fee $5,000 which includes most meals, all lodging, and all in-country travel. Does not include air fare or tuition.
